ORTHOPAEDIC PROMPT CARE AT THE SPORT & SPINE INSTITUTE

Orthopaedic Prompt Care at The Sport & Spine Institute has been founded by some of the areas leading healthcare professionals. Their ongoing commitment is to provide an urgent care facility specifically structured for orthopaedic injuries with almost no wait time.

Whether your injury is work, sports, or accident related, you can now eliminate the long wait and higher cost of the hospital emergency room and be quickly screened, examined, x-rayed and treated.

At OPC, we are dedicated to the prompt care of adults, teens and pediatrics with any extent of injuries relating to the back, bones, joints, muscles or ligaments.

Our facility reflects the latest diagnostic and treatment expertise and technology available today as well as compassionate attention from our entire medical team.

We care for you from injury through recovery ...all under one roof.

Services

- MRI
- Digital X-ray
- Physical Therapy

Why choose Orthopaedic Prompt Care instead of hospital emergency rooms and urgent care centers?

- **No Appointment Necessary.** Because accidents don't happen by appointment.
- **Individuals Are Seen Immediately For Injuries.** Broken bones, sprains and knee and shoulder injuries aren't a priority in a typical hospital emergency room, and patients often are left waiting for long hours as doctors take other health related emergencies.

- **Treating Injury Not Illness.** Illness is commonplace in Emergency rooms and urgent care centers. OPC provides a prompt care environment that doesn't risk your good health.

- **On-site Orthopaedic Specialists.** No waiting for an on-call specialist to arrive. OPC provides on site, high quality, all-in-one comprehensive care in the field of orthopaedic surgery and musculoskeletal medicine when your treatment requires it.

- **On-site MRI And X-Ray.** Save time scheduling an appointment and traveling to another facility. OPC is fully equipped to provide MRI and X-ray services.

- **On-site Physical Therapist.** No waiting for a follow-up appointment. OPC provides on site physical therapy services as well as training for crutches, walkers, braces and other supportive devices as needed.

- **Insurance Coverage.** Saving you and the healthcare system money. OPC visits are generally covered by most insurance carriers and the co-payment is less than the emergency room. Call, or visit our website for participating plans.

- **Patient Focused.** You are treated with respect for your time and pain. OPC is committed to providing convenient, comprehensive orthopaedic care in a compassionate environment. We are dedicated to relieving your pain and making your life better.
