The first thing you will notice in a Sea Castle home is the level of quality. The beauty of wrought iron railings, grand entries, the tranquility of a luxurious marble bathroom, or the presence of a gourmet kitchen.

ea Castle believes in management from the top down... Our owner, Paul McBride is committed to and personally involved in every project. He is accountable for every decision and step in your home process.

Each Sea Castle home blends our knowledge with your vision. With it's spacious layouts and light filled rooms, your new home will be a joy to live in everyday.

ea Castle's team knows you may not see all of the other details, they put into every home, like the high quality materials or a hand selected team of contractors, but these too, make your home special.

Sea Castle's staff is dedicated to providing the best possible home building experience, from the preliminary consultation to the final new home orientation walk-through.

We guide you through each step of the building process to insure your needs are being fully met.

Even after your home is complete, our dedicated service team is ready to assist you. We offer the luxury you deserve and the comfort you desire. Take pride in owning the home of your dreams.
